TAFT SAYS WILSON KILLED LEAGUE

Says That President Wilson
Would Not Follow His
Advice.

By the Associated Press
SEATTLE, Wash., Oct. 11.—Former President Taft, when shown a statement made public by Governor Cox at Springfield, Ill., last night, said he had recently given permission of correspondence between himself and President Wilson during the drafting of the league of nations covenant.

He also declared he had repeatedly referred to the fact that the president had consulted with him when the league constitution was being drawn, declaring he had favored the acceptance of a league without reservations and expressing disappointment that the United States "has not become a party to it." Mr. Taft held the president responsible for the defeat of the plan.

"The president wrecked his own league," he said. "He wrecked it with Article 10, of which he is the author. Personally, I would stand for article 10, because I am exceedingly anxious for a league to be established. At the same time the league to enforce peace, of which I was chairman, had no article 10 in its proposition.

"It has been clearly demonstrated that the representatives of the people in this country will not stand for article 10. The stubbornness of the president in his refusal to accept endorsement by the senate of the league covenant without article 10, defeated the treaty. Now Mr. Cox has swallowed article 10 and declared as chief executive he will not approve the league without it. That means that with Governor Cox we shall get no league, for even if the democrats elect every senatorial candidate which they have in the field, they will not have enough to carry the league without reservations.

"Senator Harding, on the other hand, has already voted twice for the league without reservations, and promises that as president he will endorse the covenant without article 10 or a similar international agreement, limiting armaments, providing a court of arbitration and a conference for the discussion of questions of non-judicial character. That is exactly what we want and that is what Harding as president will give us."

To Sign Peace Treaty.

By the Associated Press
RIGA, Oct. 11.—The Polish and Russian soviet peace delegates have arranged to sign a preliminary peace treaty at the Black Head House here tonight. The treaty contains 17 articles and two annexes one the armistice to be concluded tonight and the other a map.

Railroads Appeal to Wilson.

By the Associated Press
WASHINGTON, Oct. 11.—The railroads of the country appealed today to President Wilson against the ruling of the controller of the treasury, that the treasury department might hold from the roads all further payments due them under the guarantee provision of the transportation act until final accounting had been completed by the carriers.

Court Won't.

By the Associated Press
WASHINGTON, Oct. 11.—The supreme court refused today to reconsider its decision of last June 7, sustaining the validity of the prohibition amendment and provisions of the enforcement act.

Investigating Fire Loss.

By the Associated Press
CAMERON, Tex., Oct. 11.—An official investigation was under way today to determine, if possible, the origin of a fire which caused property loss here Sunday estimated upward of one million dollars in the plant of the Cameron Compress company and adjoining property. Some officials believe it was the work of incendiaries and investigators were giving particular attention to an automobile seen near the compress and which was driven away at high speed.

Clear Day For Game.

By the Associated Press
CLEVELAND, Oct. 11.—Clear, warm and no sign of rain was the prediction of the weather bureau for this afternoon's world series game.

New York city's greatest rainfall was in 1889 and amounted to 55 inches.

WONDERFUL

Two Shawnee county farmers after looking at the price of woolen suits and mutton chops last year, decided it would be profitable to get into the sheep business. So each bought a flock, paying \$10 a head.

The other day one farmer shipped his sheep to Kansas City and got \$2.39 a head. The other tried to sell his at public auction and couldn't get a bid. Both have a crop of wool for which they cannot find a market. Yet woolen suits still sell at from \$60 and \$80 and mutton chops at 45c a pound.

And the government says: Save your money and buy War Savings Stamps.

CARTER WILL CERTIFY LEVY

State Auditor Promises Action Monday Following Opinion of Freeling.

OKLAHOMA CITY, Oct. 9.—

Frank C. Carter, state auditor will certify the ad valorem tax of 1 1/2 mills for state purposes to the county assessors for collection next Monday, he said, after Attorney General Freeling had rendered opinion holding that it was his ministerial duty to certify the levy passed by the majority of the board of equalization and that he had no authority to consider the legality of the board's action.

Freeling did not discuss the figures upon which the majority members of the board based their contention that a levy is necessary of the other figures of the auditor upon which he based his opposition to any levy at all, he said in his opinion. He held only that the auditor had no power to question the action of the board after it had been taken.

"So long as he holds it is my duty to certify the levy, I acquiesce," Carter said. "I shall send out notices to the county assessors on Monday for them to spread the levy on their tax rolls. The attorney general did not pass upon the questions to the levy, and I do not consider that his opinion is a reversal of my contentions. I mean merely that if taxpayers of the state agree with my statements that a levy is unnecessary and illegal it is for them to take steps to stop its collection and not for me to do it."

Carter already had certified to the assessors the state levy for one-half of one mill, required by the constitution for schools and highways. It was to the additional levy of 1.5 mills for general revenue purposes that he has been in opposition since the levy first was passed on September 14.

Firemen Save Many Bales of Cotton From Burning

Quick action on the part of the local fire department, with the aid of volunteer fire fighters, saved thousands of dollars worth of cotton from destruction by fire Saturday night in the cotton yard here. The fire was not discovered until it had spread considerably, and six bales of cotton were consumed before the flames were checked. The origin of the fire could not be ascertained.

Fire this Morning.

The fire department was called out again this morning when a box car loaded with alfalfa feed on the Frisco tracks caught fire. The firemen responded promptly and the flames were quickly extinguished.

Spontaneous combustion resulting from the heat within the car is thought to have been the cause of the fire.

Memorial to Honor Officers Who Died In World War

By the Associated Press

NEW YORK, Oct. 11.—The names of more than 4,500 commissioned officers who paid the supreme sacrifice in the World War will be enrolled in the national memorial clubhouse to be erected here for living officers. Of this number New York City will be represented by the names of at least 335 commissioned men.

The club, of which Rear Admiral Bradley A. Fiske is president, used the casualty report of the American Expeditionary Forces as a nucleus for compilation of the list of officers dead but through correspondence with governors, state adjutant generals, clubs, lodges, business concerns and next of kin the list of 3,500 officer dead as officially announced in Washington in December 1919, has been supplemented by approximately 1,000 names.

Believing that other names are missing, and desiring to make the club the most complete and authentic on record, Rear Admiral Fiske has requested relatives and friends of officers who died to communicate with him at headquarters of the memorial organization, 261 Madison Avenue.

Civil and military records of each of the enrolled dead officers with other data, including copies of citations, general orders, photographs and memorial books will be preserved in the archives of the new clubhouse.

The main feature of the building will be a memorial court or hall with bronze paneled walls where the names of the dead will be engraved. Records of those who won the Distinguished Service Medal for exceptional acts of bravery will be engraved directly under their names "in order that future generations may find inspiration in the valiant deeds of the past," it was announced.

While the building will stand as an enduring monument to the heroic dead the club has determined that the memorial can best serve the interests of the nation by its usefulness as a home for officers and as a "trailing center" for all forms of patriotic activity. Consequently the building will provide comfortable quarters for officers who visit New York.

Four committees sponsoring the movement to build the memorial are headed by Major General Leonard Wood, Rear Admiral William S. Sims, Henry P. Davidson, former head of the American Red Cross, and Mrs. Cornelius Vanderbilt, wife of Brigadier General Vanderbilt.

The design of the building will be selected from competitive drawings submitted by leading architects of the country. The committee on design includes Charles Dana Gibson, Edwin Howland Blashfield, Benjamin Morris and Henry Bacon, the latter being designer of the Lincoln Memorial at Washington, D. C.

Ten Soon To Be Hanged In Illinois State Penitentiary

CHICAGO.—The death cell in the old Cook county jail has sent many men to the final earthly expiation of crimes since the execution of John Stone on July 10, 1840, but October 14 and 15 are destined to be "red letter" days in the institution's history. October 14, eight men, several of them members of the notorious Cardinella gang, will die at the end of ropes and the following day, October 15, Arthur Haensel and Frank Zagler will be executed.

Many men, some of them gaily and others who later were found to have paid for another's crime, have come to their deaths in the Cook county jail since John Stone's time, but the nearest approach to the executions that will occur Thursday and Friday was in 1912 when five men were executed in one day.

One hundred feet of Italian hemp will be used for each hanging. The hundred feet for each individual is divided into three parts, one part for a "sand bag" test, the second for the actual hanging and the third for emergency use.

Of the prisoners who will be hanged October 15, Arthur Haensel has been three times reprieved, the first time just as he mounted the gallows steps. Haensel, through his attorneys, announced that he desires either to be executed or he wants his sentence commuted.

He does not want to run the risk of another reprieve.

Siegler, who will go to his death shortly after Haensel's execution, also was convicted of murder.

On October 14, Sam Cardinella, head of the gang which has borne his name for three years and which has been the subject of many searches for suspected killers, will be the first man to stand on the trap. After him will come two other members of the gang, both convicted of the murder of a north side grocer who was called to the front of his store and shot dead as he appeared in the entrance and implicated in a score of other gang killings and wars.

Other Cases Not Noted.

The other five cases set for October 14 are men whose trials and convictions received little attention from the public. Most of them have been implicated in two or three "affairs" that ended in bloodshed.

The wholesale hangings of the coming week are also receiving earnest attention from other prisoners in the Cook county jail. Two hundred of them witnessed the hanging of Rapali Durage last fall as an "example" on the order of Sheriff Charles W. Peters. These "public" hangings were the subject of much discussion at the time and the question of whether the prisoners will have another example set before them has arisen, although not officially. Sheriff Peters has been warned not to hold any more executions for the benefit of the prisoners at the jail.

Normal and Aggie Freshies Tie in Fierce Gridiron Battle

The game between East Central State Normal and the freshmen of the A. & M. college at Stillwater last Saturday was one of the hardest contested games in the history of either team. The score was a nothing to nothing tie, and the freshman team of the A. & M. college is one of the strongest in the state, the showing made by the Normal is a good one.

Coach Clary was not very well pleased with the playing of his men in the first half, but he declares it was a good game in spite of that. During the game not one of the opposing team was able to make a gain through East Central's line.

Arthur Vernon at left halfback received a broken collar bone and his loss was keenly felt by the Normal boys. He was not put out of the game, however, until he had been able to make several "long gains" by catching forward passes. The first three quarters of the game were not of the best class of football but the last quarter was a fight from the start. Every man in the game put forth his best efforts but the East Central team swept the A. & M. boys off their feet and three times carried the ball within one yard of the goal. Luck seemed to be against them and they were penalized 20 yards each time, and having only one or

two downs left they were unable to gain the ground lost.

Puss Oliver took the place of Vernon and proved very able to fill this important place. He was successful in carrying the ball for several gains and breaking up the freshman passes.

Ed Brents and Pat Brazil were very prominent in the game and were the main factors in several long gains.

Members of the Normal team are satisfied with their showing and will play Henry Kendall here next Saturday evening. Henry Kendall is one of the strongest teams in the state and defeated the varsity team of A. & M. last Saturday. This will be the last opportunity the Ada fans will have to see Coach Clary's men in action and all are urged to come out and root for the home team. If East Central defeats Henry Kendall they will be well on the road to the state championship.

LONDON, Oct. 11.—Terence MacSwiney passed a fairly good night at Brixton prison, according to a bulletin issued today by the Irish Self Determination League. His condition was said to be virtually the same as yesterday. This is the 60th day of the lord mayor's hunger strike.

HE LIVES ON BASEBALL

Tris Speaker, Manager of Cleveland Indians

Baseball isn't a business or a pastime with Tris Speaker. It's a passion. He lives on it. That's why he almost copped the batting title while carrying the cares of a manager of a pennant contender. Tris was born in Hubbard, Texas, April 4, 1888. Played ball while at Fort Worth Polytech. Was with Houston when the Red Sox paid \$400 for him. Played with Little Rock in 1908. Then joined Red Sox. Became regular center fielder in 1909. Purchased by Indians April 12, 1916, for \$55,000 and two players. He succeeded Fohl as manager July 19, 1919, and won the American League championship in 1920. Today his tribe took the fourth game of the world series from the Brooklyn Dodgers by a score of 1 to 0. Cleveland has only one more game to win to cop the world's championship pennant.

"THE CRANK" HAS CONFESSED CRIME

By the Associated Press

HARRISBURG, Pa., Oct. 11.—August Pasquale, "the crank," has confessed to Major Adams, superintendent of the Pennsylvania state police, that he stole Blakely Coughlin from his home in Norristown, Pa., and smothered the child under his coat. He declared he buttoned the coat around the baby when he heard a noise as he was descending the ladder, and that when he had gone some distance from the house he found the baby was dead. Major Adams said today Pasquale had sent for him yesterday and that while talking to him in the Montgomery county jail, the prisoner confessed the kidnapping and smothering of the child.

Major Adams said that while Pasquale told him what he had done with the body, he would not make that public until the locality could be searched. The head of the state police declined to make any further statement in connection with the affair.

Walter Wray Gets Into the Race for The Shriner's Ring

Local Shriners will regret to learn that Mr. A. W. Parker, Ada's candidate for the ring at the big Shrine ceremonial to be held at Sulphur October 28, will be unable to attend the ceremonial and has, in consequence, withdrawn from the race.

Mr. Parker informed a News reporter yesterday that business matters made it imperative that he be in Omaha on the date of the ceremonial, and suggested that we announce the fact in order that he might not stand in the way of others desiring to run for the ring. Good news came this morning, however, when Walter Wray of the Ada Motor company announced that he would make the race. Mr. Wray is well and favorably known in Masonic circles and a more desirable candidate for the ring could not be found. It is up to every Shriner in Ada to get busy and boost Mr. Wray's candidacy, as we can't afford to let the ring go to some other city.

GIANT RESERVOIR IS ACCEPTED BY CITY

A great concrete reservoir, built for the city of Ada by Joseph C. Nelson, Chicago contractor, has been formally approved and accepted by the city, and is now ready for use in event of the present supply from the big tank falling short. The finishing touches were put on the reservoir last week. It was inspected by the mayor and city commissioners, and approved by the city engineer.

The reservoir cost the city of Ada \$46,000. It will hold two million gallons of water, and is filled from a lead, which conveys the water from the famous Byrd's Spring. The water in the city tank is also pumped from the spring. In the event of fire or an increased drain on the supply in the tank, the reservoir can be drawn upon at any time. It is divided into two compartments, so as to make possible an available million gallons at all times. One side may be drained while the other side is being filled.

Money for building the reservoir was secured from the fund of \$335,000 recently raised by the city on a bond issue for street and waterworks purposes. Work of installing a complete waterworks system throughout the city will be pushed to a rapid completion, according to the mayor, and the city is now advertising for bids to finish paving the streets of the city.

CLEVELAND SHUTS OUT BROOKLYN 1 TO 0

CLEVELAND, Oct. 11.—Cleveland won the sixth game of the world's series from Brooklyn today by a score of 1 to 0. It was a pitchers' battle between Mails for Cleveland and Smith for Brooklyn. Brooklyn fought hard to the very end of the ninth in an effort to overcome the one-score lead of the Indians. The run was made by Speaker, who came in from second on a two bagger. Cleveland won yesterday's game, 8 to 0.

OFFICIAL VERSION OF WILSON SPEECH

Given Out To Answer the
Charges of Senator
Spencer.

By the Associated Press

WASHINGTON, Oct. 11.—The White House today made public what was described as an "official version" of President Wilson's address at the eighth plenary session of the Paris peace conference. The exact wording of this address, directed to the representatives of Rumania, Serbia and Czechoslovakia, has been the subject of a controversy between President Wilson and Senator Spencer, republican of Missouri.

The senator declared in a political speech that the president had promised Rumania and Serbia, that "if any nation ever invades their territory they would send the American army across the seas to defend their boundary line."

Mr. Wilson in a telegram to Senator Spencer on October 5, said that this statement was "false". In reply Senator Spencer called for the official record, saying that the statement to which he had referred was in the "stenographic notes," of the eighth plenary session, in which the president was reported to have said:

"You must not forget that it is force that is the final guarantee of a peace of the world, if the world is again troubled the United States will send to this side of the ocean their army and their fleet."

The president's words as given in this version follows: "How can a man like the president of the United States, for example—and I can speak for no other—after signing this treaty, if it contains elements which they do not believe will be permanent, go 3,000 miles away across the sea and report to its people that it has been made a settlement of the peace of the world? It cannot do so and there underlies all these conditions, the expectation on the part, for example of Rumania and Czechoslovakia and Serbia, that if any covensants of this settlement are not observed the United States will send her armies and her navies to see that they are observed."

The official version of the full text of the president's address was furnished to the White House last week by Fred A. Carlson, of Chicago, who was an official stenographer with the American peace delegation and who wrote that he would be glad to swear to the accuracy of the transcript.

Carlson's letter was dated October 6, and was addressed to Charles Swin, stenographer to the president in the Chicago newspapers, that he had just gone over his notes and that he could find no such statement as that attributed to President Wilson by the senator. He added that it was barely possible that the quotation was "an error in the translation into English of 'Matour's' translation into French of the president's remarks, and as you know the translations sometimes mix things up a bit."

"I wish I were in a position to make public what the president said," wrote Carlson, "for I feel that the president is being sadly misquoted, but of course, as the meeting was a secret one, I can say nothing."

PAIGE CAR BREAKS ALL RECORDS IN PIKE'S PEAK CLIMB

COLORADO SPRINGS, Oct. 10.—The new Paige "6-66" seven passenger stock model touring car with Ralph Mulford at the wheel recently climbed Pike's Peak, using the cog railroad as its route, a feat that has never before been accomplished by an automobile and which had been presumed to be impossible. The extraordinary difficulties of the cog road climb lie in the fact that the car was not only obliged to run on the ties and over trestles, cattle guards, cog switches and rocks, but was forced as well to conquer a grade that in some sections mounted as high as 25 per cent. The climb is declared to be the highest, steepest and most difficult ever made by an automobile. No other cog road in the world is half so high and no other vehicle except a specially built Baldwin cog locomotive, has ever mounted this road. Even Son-of-a-Gun Hill, nearly a two-mile stretch of 25 per cent grade, was made with ease. The distance covered was nine miles and the start was made from Manitou at a altitude of 6,400 feet. As the altitude at the top is 14,190 feet, the Paige had to climb nearly 900 feet a mile, with an average grade of 16 per cent. At no point in the nine-mile climb is the grade less than 7 1/2 per cent, four of the nine miles are 25 per cent, three and one-eighth between 20 and 25 per cent. The longest pull of 25 per cent is a mile and three quarters at 12,000 feet. Added to the difficulties was the decreasing depression as the altitude mounted to 14,000 feet. The hardest stretch is the last half

mile of 25 to 28 per cent grade at 14,000 feet. As several stops were made to take moving pictures and "still" photographs, no attempt was made to take the time. In addition to the stops for pictures the Paige was obliged to wait three quarters of an hour because of a break down in the cog locomotive which had just preceded it. No accidents of any kind were suffered by the car. Some of the grades were traveled in intermediate at a speed of 15 miles an hour. On the steepest grades the car mounted at a rate of six miles an hour in low. Not over a gallon and a half of water was used on the trip. Among the points passed enroute were Little Chief, Iron Springs, Hell Gate, Grand Pass, Lion's Gulch, Timberline, Windpoint, Son-of-a-Gun Hill, Bottomless Pit and Abyss of Desolation. As many as eight

persons were carried on some of the grades. T. B. Wilson printer of Pike's Peak Review, whose shop is at the top, was the most astonished man in the world when he saw the car approach his office. "I have lived on this peak for 24 years," he said, "and I'll certainly admit that this is the first time I ever saw an automobile way up here." The Paige descended by the way of the auto highway, thus being the first car to make the Pike's Peak round trip. This great event of the Paige far overshadows the Labor Day events for the reason that the car that climbed the cog road was a stock model while all the Labor Day entries were specials. It was proof conclusive that in power and stamina the Paige "6-66"

has no superior in the world, for no test could more conclusively prove the ability of the Paige to negotiate any hill or stand up under the most severe abuse than this nine-mile climb over rough ties, loose roadbed and unusual grades, with several passengers aboard. And following this test the car was driven from Pike's Peak to Denver, thence to Chicago and Detroit, showing no indication of the terrific strain to which it had been subjected.

THE BEST ON EARTH

Says Mrs. Staples of Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I could not eat or sleep for six months, had fainting spells and could not walk without help for three months, caused by female trouble. My cousin, who was a doctor, told me to take Lydia E. Pinkham's Vegetable Compound and it helped me greatly. Then during the Change of Life I used the same remedy. I am seventy years old now and am able to do my own housework and walk one mile to church every Sunday morning and evening. I am recommending the Vegetable Compound to my friends having the same troubles as I had. Your remedy is the best on earth. I cannot find words to express my gratitude to it."—Mrs. SUSAN C. STAPLES, 157 E. School St., Taunton, Mass.

The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It has relieved women from some of the worst forms of female ills, such as displacements, inflammation, and ulceration. Why don't you try it?

Famous Singer Has Won Her Way To Greatest Success

Anna Case, who appears at the McSwain theater Wednesday, has won her way to success in the world of music in spite of adversity. The story of this great star's rise to fame is on fraught with human interest.

Her father, a poor blacksmith, opposed her musical career from the very start. Many a night she went to the stables, saddled a horse and rode miles in the darkness to give music lessons in order to earn money to further her own musical education.

At the Metropolitan where she starred for several seasons, she is known as the "miracle girls." She has sung from coast to coast and

THE LEVITY OF WILLIAM II

The great war played havoc with practically all rulers "by Divine right," completely knocking the supports from under their pretensions. After-war revelations, continuing the process, have demolished whatever vestiges of the shaky foundations that still lingered. The former kaiser, for example, must feel that there is indeed no one left to do him honor in these terrible times when less majesty, or as he would say, majestaetsbeleidigung, is a continuous performance without letup. It is not merely the critical or contemptuous observations of foreigners that he has to complain of. One prominent German after another in whom he once confided to confide has handled him without gloves in newspaper interviews or published memoirs. The latest of many blows from such German sources comes in the form of the published "Experiences" of Herr Erzberger, who, though he says he can not yet tell the story of his work in the government and the Reichstag, writes that he had frequent occasion to observe the kaiser and was struck by his "extraordinary levity."

He gives examples of the former kaiser's ignorance as well as of his flippancy, telling, for one thing, of his flighty talk to the socialist members in July, 1917, about coming to terms with France—such terms as would be acceptable in Germany and impossible in France—and then leading the entire continent in a war upon England! Testimony from many sources shows that, in his reckless irresponsibility, William II led his diplomats and ministers generally a trying life. "This miserable emperor of ours," Baron Holstein confessed privately to Sir Valentine Chirol as far back as 1908, "will either end in a madhouse or destroy our German empire." William II may not have believed in the "Divine right" of which he boasted, but he must have thought that he had the world in a sling and could venture to play with it just as irresponsibly as a child may play with a ball or top.

IMPORTING DISEASES

There are many easterners who, at a supposedly safe distance, decline to sympathize with the Pacific coast's prejudice against Asiatic immigration, but everybody in all sections will unhesitatingly support needed measures to keep out Asiatic and European diseases of the more deadly sort. In a San Francisco dispatch Cornelius Vanderbilt, Jr., quotes Surgeon-General Cummings, chief of the United States Public Health Service in that city, as saying there is no little danger that we may import from middle Europe the deadly contagious diseases now prevalent there. "Seven million people," he says, "are trying to get here from that part of Europe which is at present a hotbed of typhus and yellow fever." He says further that "the bubonic plague is present in all Mediterranean ports, and I hear there have been twenty cases in Paris."

Although representatives of the Federal government are boarding and fumigating incoming foreign vessels, General Cummings believes that "Europe's plague will obtain a foothold here ere many months go by, unless we keep close watch upon all immigrants newly arrived," and he begs the cooperation of the people of all communities in reporting promptly suspicious cases. Though the danger may be exaggerated, it is much better to err on the side of extraordinary precaution than to be caught napping.

ENTHUSIASM — HAVE YOU GOT IT?

Enthusiasm is one of the most desirable of qualities! It attracts people to you and causes them to co-operate with you. Enthusiasm is the spark which touches off that dormant power which is housed in your brain and puts it into action.

Enthusiasm is a sure antidote for laziness and procrastination; it is the main spring which keeps your mental machinery in action.

Enthusiasm overcomes despondency and generates hope, self confidence and courage. Enthusiasm stirs up your liver and puts it to work, thereby helping it carry on its vital function of cleansing your blood.

Enthusiasm arouses your whole being and causes you to transform your dreams into reality!

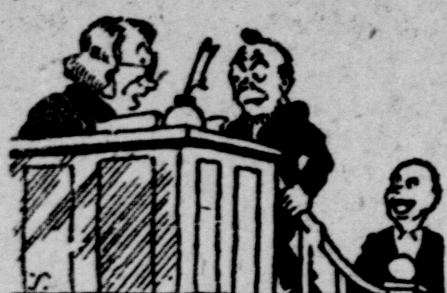

If you are not enthusiastic over your work you do not love it, therefore you are trying to perform work for which you are not fitted.

Enthusiasm is contagious! Unconsciously you pass it on to those with whom you come in contact and it arouses them to act and think as you do.

An enthusiastic person, when guided by a sense of justice toward others, is usually a great asset in any organization, business, family or community.

Are you a person of enthusiasm?

Happy Felsch is said to be the most repentant of the "crook" baseball players, but even he says that he "got into the deal" when he "found out that the others were in it."

Court House News

District Court in Session.

The October term of the district court for Pontotoc county opened this morning with Judge J. W. Bolen presiding. The criminal jury docket is being disposed of today, and the following cases have been passed upon:

State of Oklahoma versus Lorenzo Bagos, grand larceny; plea of guilty by defendant. Sentenced to serve seven months at hard labor in the state pen.

State of Oklahoma versus C. S. Hickerson, obtaining money by bogus check; plea of guilty by defendant. Sentenced to serve six months in the penitentiary.

State of Oklahoma versus Walter Hagen, larceny of domestic animals; plea of insanity by defendant. Held for investigation. The court appointed two local physicians to determine the mental condition of the accused.

The case of the state versus Henry Franklin will be tried by a jury. Franklin is accused of forgery in the second degree.

In Police Court.

Fifteen cases were on docket in police court this morning, most of them being for drunkenness and disturbing the peace. They were disposed of in short order by the mayor.

C. W. Lane, John Kincaid, F. M. King and Dick Brown, all of Sakawa, were arrested last night for being drunk and disturbing the peace. They were locked up and held for trial this morning. Kincaid broke jail during the night and disappeared. The others tried to get out, and failing to do so, proceeded to tear up and wreck everything in the cells. They were given the limit when arraigned before the mayor—\$24.75.

Jim Perry, T. E. Perry and J. H. Brown were up for being drunk. They were each fined \$6 and costs of court.

Lena Williams, negroess, pleaded guilty to carrying concealed weapon and was fined \$24.75. John Dunford, negro, was arrested last night for having a revolver concealed on his person. He was fined \$24.75.

C. G. Williams was fined \$24.75 for having a set of knuckles concealed on his person.

Ollie Morris, Jim Gray and Fred Arnold were arraigned on charges of being drunk. Each was fined \$24.75.

ARDMORE TO ASK FOR RECALL OF OFFICERS

ARDMORE, Oct. 9.—Beginning tomorrow morning at 9 o'clock, twenty teams, each team composed of members of different "citizens" committees, will circulate petitions asking for the recall of Mayor Wm. F. Freeman and City Commissioners William S. Fraley, J. L. Wilson and Roy W. Shores.

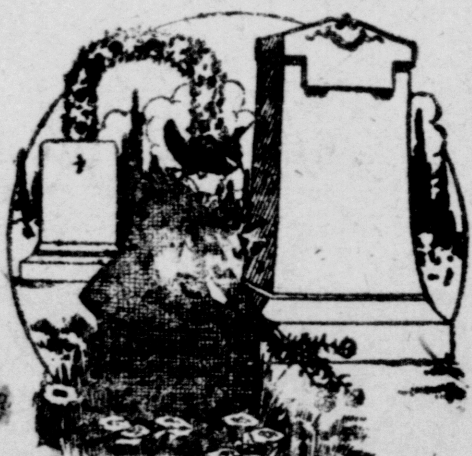

In support of the recall petition of the mayor it is alleged that he has been guilty of gross neglect of duty as the chief executive of Ardmore, that he has sanctioned illegal transfer of funds belonging to the city and that he has used the powers of his office to defeat the wishes of the majority of the citizens in their attempt to change the form of city government from commission to managerial. In the petition asking the recall of Commissioner Shores it is alleged that he accepted the appointment from the mayor with the understanding that he would vote upon all measures in conformity with the wishes of the mayor.

Against Commissioners Fraley and Wilson, general charges are preferred. No recall is asked for Commissioner Young. Mayor Freeman was formerly judge of the district court in this judicial district. Commissioner Shores represented Carter county, of which Ardmore is the seat of government, in the lower house of the Oklahoma legislature.

This information is given out by members of the local post of the American Legion and by active members of the Ardmore Lions club and Rotarians. The civic bodies have been at work for some time in an effort to have submitted to a vote of the people the matter of changing the government to a managerial form. At present Ardmore has the commission form, the commissioners serving for salaries of \$300 per annum each. The American Legion post has been most aggressive in its fight for the change of government, claiming that Ardmore's interests will be best conserved by having a city manager.

Keep your stomach, liver and bowels in good condition if you would have health. Prickly Ash Bitters cleanses and strengthens these organs and helps the system to resist disease germs. It is the remedy for working men. Price \$1.50 per bottle. Sold by Gwin & Mays Drug Co. (Adv)

LEAGUE CASE READY FOR JURY COX SAYS

By the Associated Press
SPRINGFIELD, Ill., Oct. 11.—The league of nations "case" is about ready for the jury, Governor Cox of Ohio, declared here today in an address launching his Illinois campaign. Senator Harding, his republican opponent, Governor Cox states, has given what appears to be an "ultimatum" against the league and the American electorate has an unequalled opportunity to make a contribution to the civilized world.

Following the publication today of correspondence between President Wilson and former President Taft, in which the latter appeared as the president's advisor in the league drafting, Governor Cox quoted Taft in an effort to show that the former president has repudiated Harding's plan for a new world association. The governor also reiterated charges that Chairman Hays of the republican national committee is behind "a conspiracy of silence" to stifle the democratic campaign in the republican press and otherwise.

STALL RETURNS FROM CITY

WITH NEW PAIGE SPEEDSTER
N. B. Stall returned last night from Oklahoma City where he had been in the interest of the sales of Paige cars. Mr. Stall drove one of the new speedsters back, which he claims don't have to step out of the way for anything that goes over the pike. This is the same type of car that made the famous trip three weeks ago up Pike's Peak of the cog road and descended the peak and went on into Detroit as though the trip was nothing unusual.

The car is a marvel of beauty.

GO TO THEATRE

At the McSwain.

James Oliver Curwood always makes much of animals in his famous stories of the great out-doors, and they have not been overlooked in "The Courage of Marge O'Doone," which has been made into picture form by Vitaphon and will be shown at the McSwain Theater today. Two animals are vital to the powerful story—Tara, a grizzly bear, and Barea, an outlaw sled dog, one-quarter wolf. Tara had been trained by his mistress, Marge O'Doone, to come at her call and to kill anyone attacking her. Barea is powerful and vicious, but a worshiping slave to David Raine. Fortunately David Smith, who directed the special production, is an expert in handling animal scenes, and some wonderful results have been obtained.

David Raine has saved Marge from "The Nest," the stronghold of Browak and Hauck, the two bad men who have held her since childhood. They have made their escape but are pursued. They take refuge in an old cabin. The bear and the dog are with them. They fight desperately, killing or wounding several of their enemies, and then their ammunition runs out. Then the cabin is rushed. This is how James Oliver Curwood describes what the

animals did and the scene has been faithfully reproduced on the screen.

At the American.
Doris Kenyon in "The Great White Trail" is to be the attraction at the American Theater today. The story is one of the Klondike in the days when men rushed northward in their eager search for gold, when the world was rough and when the primal instincts prevailed in the cold vistas of the land of the "mauser" and the "malamute." And contrasted against this background is the theme of a pair of baby shoes that draws a husband and wife and their lost child together after many a year of vicissitudes.

At the Liberty.
"Nothing to report," says an official Italian communique. They call it "nothing" but it will tax your vocabulary to describe the marvelous achievements shown in the official war film, "Italy's Flaming Front," to be shown at the Liberty Theater today. If it's "nothing" to see men dangling from almost invisible cables 10,000 feet in the air, rushing heavy howitzers from mountain top to mountain top thru the air with the speed of an express train, and accomplishing the thousands of marvelous engineering feats, to be seen on this front, the Italian communique may be right. But when you've held your breath for nearly two hours watching these dare-devils of the Italian army, you'll say it's something—something with a vengeance.

Statement

Ira G. and Carl W. Dunlap who founded and built up the Dunlap chain of stores into the great Million dollar concern it is today and who have been for the past sixteen years Oklahoma's most successful and widely known merchants, are retiring from business in this state and intended locating in Los Angeles California. But before leaving, their twenty large store buildings must be emptied and these vast stocks of merchandise turned into cash.

This absolutely necessitates the largest closing out sale ever known in Oklahoma or the southwest and what it has taken sixteen years of hard work to build up will be torn down in only a few short weeks. Positively no goods will be sold at regular prices, ever dollars worth of the merchandise we own going in this sale at deep cut prices, and thousands of articles will be sold at less than factory costs. This gigantic, never-to-be-forgotten closing out sale will be in full force and effect until every thing is sold whether it takes 30 days or 60 days.

Attention!

To give you some idea as to the immense proportions of this Great Closing Out Sale, we list below some of the quantities of merchandise that must be sold at our twenty stores. And bear in mind that this is practically all prime, new, high-class, stylish merchandise and that every price will be cut.

35000 pairs new fall Shoes.
10000 Men's and Boy's Shirts.
3500 Ladies' Coats, Suits and Dresses.

WARD SCHOOL NOTES

Miss West is organizing a basketball team and will be ready to challenge some other team soon.

Dr. Ross was a school visitor this week, inspecting the physical development of the pupils and teachers.

The classes in music are doing fine work and the teacher, Miss Donaldson, is very much pleased with the showing of the students.

The sixth grade played the Normal training school a game of football yesterday. A good game was enjoyed by the students.

Several students are out of school this week on account of having to pick cotton, but will be able to take up their work again soon.

Mr. Miller, local scout executive, visited the school one day this week and addressed the pupils of the upper grades. His visit was enjoyed by all.

The sixth has organized a sewing and knitting club. The pupils are delighted to be able to make their own caps and aprons, and the boys are sure that the sweaters will be the "finest ever."

Irving. The Irving football team hopes to be the best in the city this year. They took the championship of the city last year and have won all three games played this season. Arthur Vernon, the principal, is the coach for the boys.

Third, under Miss Lipstrie, 61. Half-day sessions have not been started yet but if the enrollment grows any larger these sessions will have to be started. The new ward building will relieve the crowded condition and better service can be rendered.

The seventh and eighth grades met last Friday and organized a literary society. The following officers were elected:

Glenwood now has a total enrollment of 392. The enrollment in each class is as follows: B-First, under Miss Russell, 57. Second, under Miss McKendree, 56.

The classes in the lower grades are all crowded and the higher grades are full but not crowded. The pupils as a whole are coming up to the standard and good work is reported in all departments. The teachers are pleased with the work of the pupils.

The Glenwood school is securing footballs, volley balls, baseballs and other equipment for various games for the entertainment of the pupils. Enough of these articles are being secured to give, not only a few, but every child a chance to play during the recreation periods. A new slide has been put up on the grounds and the students are enjoying it to

New Phi Beta Pledges See Hades at Normal

Who?—Phi Betas.
What?—Hell Week.
When?—The past week.
Where?—Normal.

Last Tuesday upon visiting the Normal I was shocked to see Zuma Horton skipping indoors waving a flag made of a wan and red bandana handkerchief, and Alma Mount rolling a doll buggy; Agnes Cameron quenching everyone's thirst from a water bucket with a dipper, and Thelma Jeffries out on the front steps fishing. While there talking to some of the faculty as to the cause of the queer actions of these young women, up walks Dorothy Waggoner carrying a lighted lantern to her afternoon class. With her was Gertrude Hacker carrying a basket, and upon investigation I found a small bull dog in it. But I haven't told you the queer thing about these girls—they had their clothes on backward, wearing one shoe and one slipper!

Returning Thursday for chapel I found the same six girls lined up on the left and right of the door to the assembly hall, all wearing aprons and bonnets, bowing to the faculty members and all young men entering the hall.

Friday noon "Bills" pushed in terribly excited over the parade he saw moving slowly down Main street. Upon my going to see the parade I saw the six Phi Beta girls strolling down the street, each carrying a vanner man in Jean Jean style, feeding him peanuts and non-corn under a big umbrella, each girl wearing the same paraphernalia she had on Tuesday.

Thursday it was announced that the Phi pledges would shine shoes Saturday morning on the front porch, at ten cents a shine.

The H. C. L. bug having bit me, I returned for a shine Saturday. Three of the girls were running the shine parlor while the other three raked the campus.

Finishing Hell Week after not being able to speak a word all the pledges were initiated Tuesday night at the Normal. After receiving hell for two hours they were taken to town with their hair dressed "Maggie" fashion, then they were ordered to back into Mrs. Land's where they were given one year old papers and told to go out and sell them to some young men for ten cents each, and not being allowed to return until they had sold them all.

After selling them the girls were served an iced course. Being required to eat it with a knife in their left hand. One interesting feature of the evening was a 5-minute talk on "How Long a String Is." Another was a solo by Gertrude Hacker. A toast was then given by Zuma Horton to the old members of Phi Mother.

Then the girls were taken home singing "Phi did shine tonight."

MERE QUIBBLING SAYS SEN. SPENCER

By the Associated Press
ST. LOUIS, Mo., Oct. 11.—United States Senator Spencer, in a formal signed statement in his controversy with President Wilson, stated that there was no substantial difference between the report now made public by the president and the official stenographic report from which he quoted. "It is mere quibbling to attempt to pick out slight verbal differences," the senator declared in insisting that the president promised American military aid to Rumania and Serbia should these countries be invaded.

Drink a glass of Klim with your dinner

From the first time you taste Klim you will be delighted with its genuine fresh-milk flavor.

Klim is pure, rich milk reduced to powder form without cooking. Nothing is added. Nothing is changed. Nothing is taken out but the water. Replace the water and you have milk again—fresh and sweet.

Klim uses face no fears of milk shortage, no delayed deliveries, no undependable quality; they have no worries about souring. Klim does not sour in summer—it does not freeze in winter. In any locality, in any season, it is always the same excellent milk awaiting use.
